

An Opportunity for which the Church was Born

Saturday September 14, 2019 9:30am to 3pm

St Paul's & San Pablo, Salinas

Please join us for an informative conference on the stewardship of Creation at a time of climate change. How can we best respond to the crisis facing life on the planet—our island home?

Participants will receive information on the latest scientific understandings of the causes and effects of global warming, will explore how caring for the Earth is an integral part of living as the Jesus Movement, and will leave with practical tools to put their care into action. Together, we can do more as a body than any of us can do alone.

The Rev. Dr. Margaret Bullitt-Jonas,
Missioner for Creation Care,
Episcopal Diocese of Western Massachusetts,
and Massachusetts Conference, United Church of Christ
